LIGHTING SOLUTIONS

Multi-Industry Lighting Consultation & Sales

Sports Lighting

Sports Lighting:

Sports lighting needs to be bright & uniform enough to see what's taking place on field, while at the same time avoiding glare. Our LED upgrades add:

- ◆ Improved performance & safety of players & coaches.
- ◆ Increased safety for spectators at the venue.
- ◆ Better visibility, so better video recording & playback.
- ◆ Instant ON / No restart delay after power loss.
- ◆ Significant Energy & Maintenance Savings.
- ◆ Multiple new pole design options when necessary.
- ◆ Full field design to meet or exceed IES photometric standards and project-specific needs.

Why Work With Slatercom?

- ◆ Almost 20 years experience with LED lighting technology as a company.
- ◆ Nationwide coverage
- ◆ Extensive lighting design skills & experience
- ◆ No cost on-site lighting audits, photometric layouts, and proposals
- ◆ Over 100 wholesale distribution agreements with leading LED manufacturers resulting in multiple sports fixture options
- ◆ Fully customizable sports light and control systems
- ◆ Assistance with local utility incentive programs when available
- ◆ Network of installation contractors
- ◆ American made product options

MADE IN USA

Sports Lighting (continued):

Interior & Exterior Lighting

- ◆ Our LED lighting solutions provide higher illuminance levels with more delivered lumens, and are perceived brighter to human eyes, enhancing safety & security.
- ◆ LED technology saves approximately 65% electricity over MH or HPS technology, at least 50% over T8 fluorescent & reduces maintenance.
- ◆ Color Changing LED lights can accent branding.
- ◆ Smart Controls save about 40% additional energy.

Portable Lighting / Other Products

Slatercom has multiple portable lighting offerings through distribution agreements. These offerings include:

- ◆ USA made products
- ◆ Generator powered lighting
- ◆ Battery powered lighting
- ◆ LED balloon stand lights
